

INSPECTION OF RIVERBANKS AND SHORELINE 2015

INTERIM CONTROL BY-LAW 2009-206

Regulations for the protection of shorelines and riverbanks throughout the municipal territory of the MRC Vallée-de-la-Gatineau in force since August 21, 2009.

IMPORTANT

PLEASE NOTE THAT THE MUNICIPALITY OF KAZABAZUA WILL PROCEED OVER THE NEXT FEW MONTHS, TO VERIFY THE RIVERBANKS AND SHORELINE OF THE LAKES LOCATED IN OUR MUNICIPALITY.

THIS INSPECTION AIMS TO VERIFY THE CONFORMITY OF THE SHORELINE AND RIVERBANKS THAT BORDERS YOUR PROPERTY. THIS NOTICE IS NECESSARY TO ENSURE THE PROTECTION OF OUR LAKES FOR FUTURE GENERATIONS.

Primarily, the following will be identified and verified:

- Presence of building on the riverbank and the shoreline;
- Presence or absence of woody vegetation, shrub and herbaceous in the riverbank:
- Adequate delimitation of 5 meters access in the riverbank;
- Presence of fire pit on the riverbank;
- Presence of all elements or structures that may influence the quality and protection of the water of a lake.

Proper vegetation in the river protection zone of your lake is essential to ensure its sustainability. Help us protect your lake.

THE HEALTH OF OUR WATERCOURSES IS EVERYBODY'S BUSINESS.
